

Selenium Testing

To perform UI testing using selenium on <https://www.easemytrip.com/>

Tests Performed

Test 1: Search Bus Function (Happy Path)

- Navigating to the bus page
- Input the Source, Destination and Date Fields and press enter
- Select the first bus
- Verify the details on the bus

The screenshot displays the Easemytrip bus booking interface. At the top, there's a header 'Book Bus Tickets Online'. Below it, the search criteria are set: 'FROM Chennai' and 'TO Coimbatore' with a date of '29-06-2026'. A 'SEARCH' button is visible. The results section shows a 'zingbus plus' option with a 4.6 rating, 17 seats left, and a price of ₹378. The bus is a 'Bharat Benz A/C SemiSleeper/Sleeper (With ...)'. The departure time is 23:25 from Chennai, and the arrival time is 07:10 in Coimbatore, with a duration of 7h 45m. A 'Select Seats' button is present. Below the bus details, there are links for 'Boarding & Dropping Point', 'Amenities', 'Bus Photos', 'Cancellation Policy', and 'Live Tracking'.

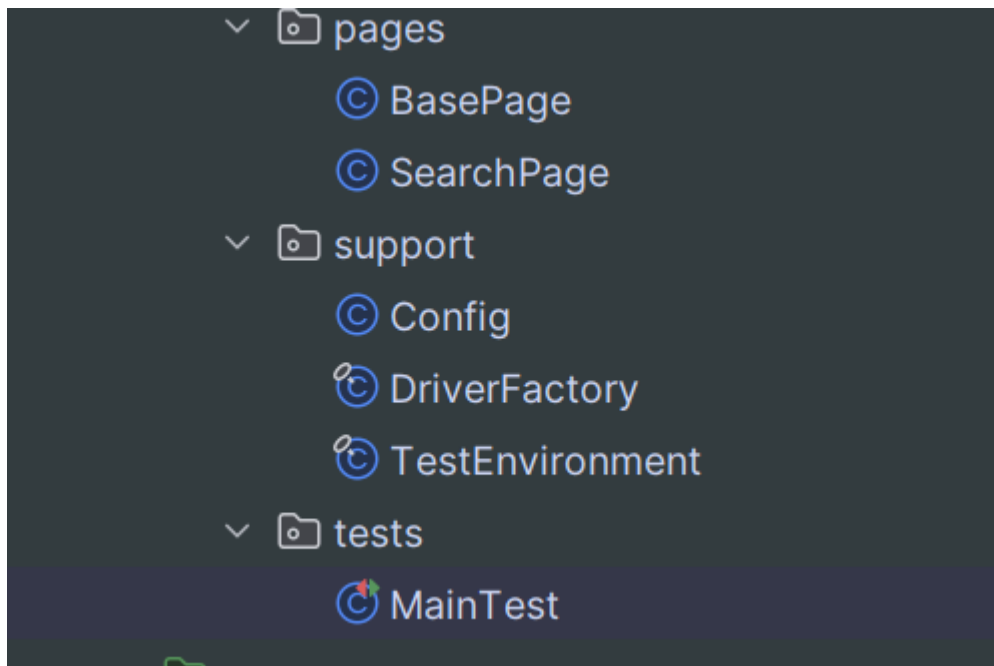

Sample Data

```
searchPage.open();  
searchPage.searchBus( sourceCity: "Chennai", destinationCity: "Coimbatore", date: "30-06-2026");
```

Environment & Setup

A new java project in IntelliJ

Folder Structure

BasePage:-Contains the driver function calls and page initialization

SearchPage:-Contains the searchPage logic functions

Config:-Contains the configuration like baseUrl

DriverFactory:-Helps in creating the chrome driver

MainTest:-Contains the test function for checking UI website

Pom.xml – Contains the dependencies

junit-jupiter ---> For the test Tag recognitions

selenium ---> for performing the UI testing

hamcrest matchers --> provides the functions for assertions

maven-surefire plugin ---> Helps in running the Test files and setting up the configuration

Results:

The screenshot displays an IDE interface with a project explorer on the left, a code editor in the center, and a run console at the bottom.

Project Explorer: Shows a tree structure with folders like `test`, `java`, `com.ust.sdet`, `bdd`, `pages`, `support`, `Config`, `DriverFactory`, and `TestEnvironment`.

Code Editor: Displays Java code for a test. Lines 91-100 show assertions and print statements:

```
91 String departure = times.get(0).getText();
92 String arrival   = times.get(1).getText();
93
94 assertEquals( expected: "zingbus plus",title);
95 assertEquals( expected: "23:25",departure);
96 assertEquals( expected: "07:10",arrival);
97
98 System.out.println("Departure: " + departure);
99 System.out.println("Arrival: " + arrival);
100
```

Run Console: Shows the execution of `MainTest`. The test `VerifyHappyPath()` passed successfully. The output includes the command used to run the test and the printed results:

```
✓ MainTest (com.ust.sdet.tests) 49 sec 285 ms
✓ VerifyHappyPath() 49 sec 285 ms

✓ 1 test passed 1 test total, 49 sec 285 ms

"C:\Program Files\OpenLogic\jre-22.0.2.9-hotspot\bin\java.exe" ...
23:25
Departure: 23:25
Arrival: 07:10

Process finished with exit code 0
```
