

MODULE ASSESSMENT 1

API TESTING

GITHUB LINK: [ust-sdet-training/SDET at akhil_assessment_29jun26](https://github.com/ust-sdet-training/SDET-at-akhil_assessment_29jun26)

User Story

As an authenticated user, I want to update a booking and verify the updated details.

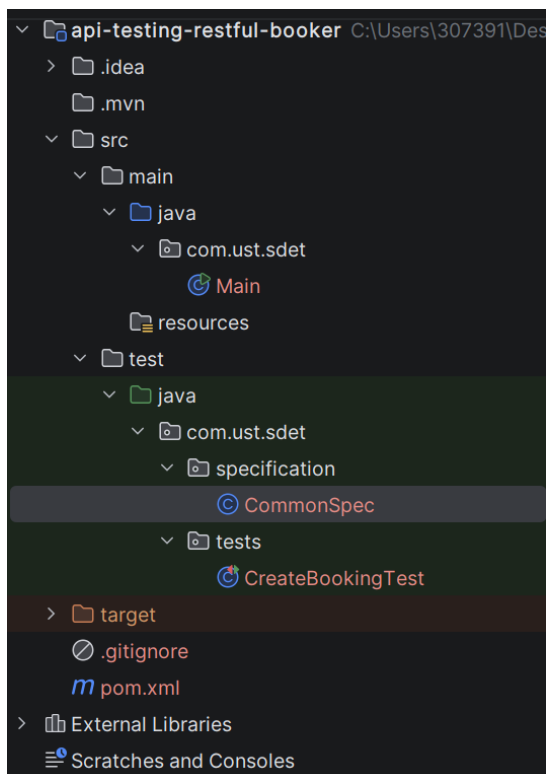

API URLs

Operation	Method	URL
Generate Token	POST	https://restful-booker.herokuapp.com/auth
Create Booking	POST	https://restful-booker.herokuapp.com/booking
Update Booking	PUT	https://restful-booker.herokuapp.com/booking/{bookingid}
Verify Booking	GET	https://restful-booker.herokuapp.com/booking/{bookingid}

Scenarios

- GET /booking/{bookingid} – returns 200
- POST /booking – returns 200
- PUT /booking/{bookingid} – returns 200
- GET /posts/1000 – returns 404

Project Structure

Specification builder

```
public class CommonSpec { 1 usage
    static final String BASE_URL = "https://restful-booker.herokuapp.com"; 2 usages

    public static String token() { 1 usage
        return given() RequestSpecification
            .spec(commonReqSpec())
            .body(Map.of(
                k: "username", v: "admin",
                k1: "password", v1: "password123"))
            .when().post(s: "/auth") Response
            .then() ValidatableResponse
            .spec(commonResSpec())
            .body(s: "token", notNullValue())
            .extract().jsonPath().getString(path: "token");
    }

    public static RequestSpecification authReqSpec(String token){ 4 usages
        return new RequestSpecBuilder()
            .setBaseUri(BASE_URL)
            .setBasePath("/booking")
            .setContentType(ContentType.JSON)
            .setAccept(ContentType.JSON)
            .addHeader(headerName: "Cookie", headerValue: "token=" + token)
            .build();
    }

    public static RequestSpecification commonReqSpec(){ 3 usages
        return new RequestSpecBuilder()
            .setBaseUri(BASE_URL)
            .setContentType(ContentType.JSON)
            .setAccept(ContentType.JSON)
            .build();
    }

    public static ResponseSpecification commonResSpec() { 6 usages
        return new ResponseSpecBuilder()
            .expectStatusCode(expectedStatusCode: 200)
            .expectContentType(ContentType.JSON)
            .expectResponseTime(lessThan(value: 800L))
            .build();
    }
}
```

Commands to execute

mvn test
