

ASSESSMENT 1

GIT LINK: [ust-sdet-training/SDET at akhil_assessment_29jun26](https://github.com/ust-sdet-training/SDET-at-akhil_assessment_29jun26)

User Story

As a user, I want to manage cart items so I can review selections before purchase.

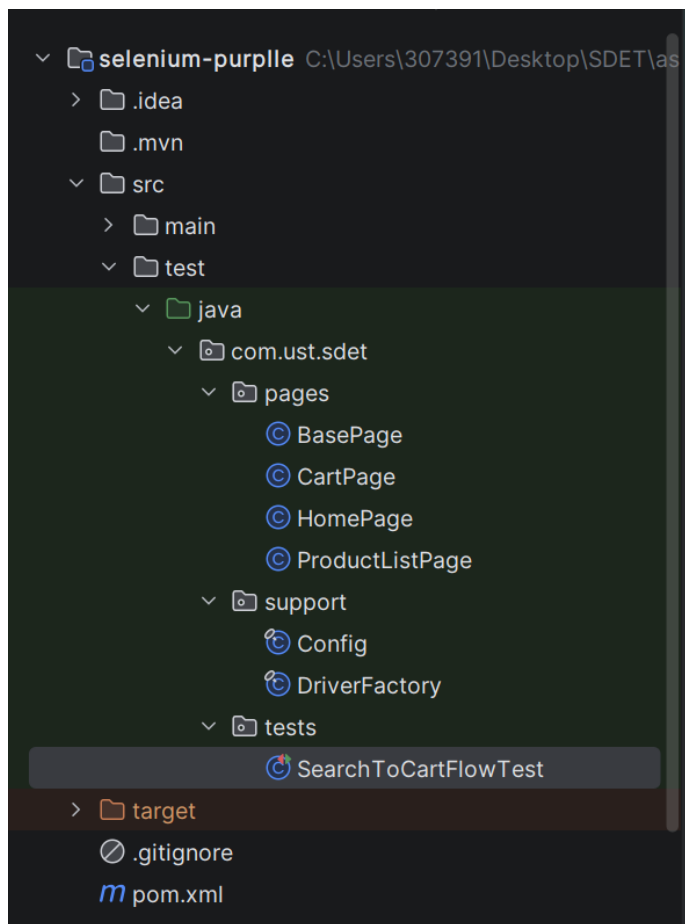

Flow Under Test

1. Search product → “shampoo”
2. Add 2 different products
3. Go to cart
4. Validate both products present
5. Remove 1 item
6. Validate:
 - * Remaining item
 - * Updated price
7. Refresh page
8. Validate cart persistence

Commands to execute

`mvn test`

Folder Structure

Comments: Was not able to run the test due to zscalar.
