

SDET WEEK-05 GATE-05 REPORT

Participant: R.P.Cipiraj
Date: 4.7.2003
Branch / Version: cipiraj-week05-gate05
Assessment: Week-5-Gate-05

1. Objective & User Story

To apply advanced playwright techniques for Flakiness Analysis,perform diagnostics and logging,make an Artifact Management for evidence,make an application resilient in offline and testing returns and refunds.

2. Environment & Setup

Layer	Pinned Choice
Language	Typescript
Test Framework	Playwright Test
Browser / Client	Chrome
Test Platform	Webapplication
Reporting	Screenshots,Playwright HTML Report
OS / Machine	Windows

Prerequisites & How to Run

- <Prerequisite 1 — e.g. install dependencies>
- <Prerequisite 2 — e.g. set environment variables>
- <Command to run tests — e.g. mvn clean test>

3. Project Structure

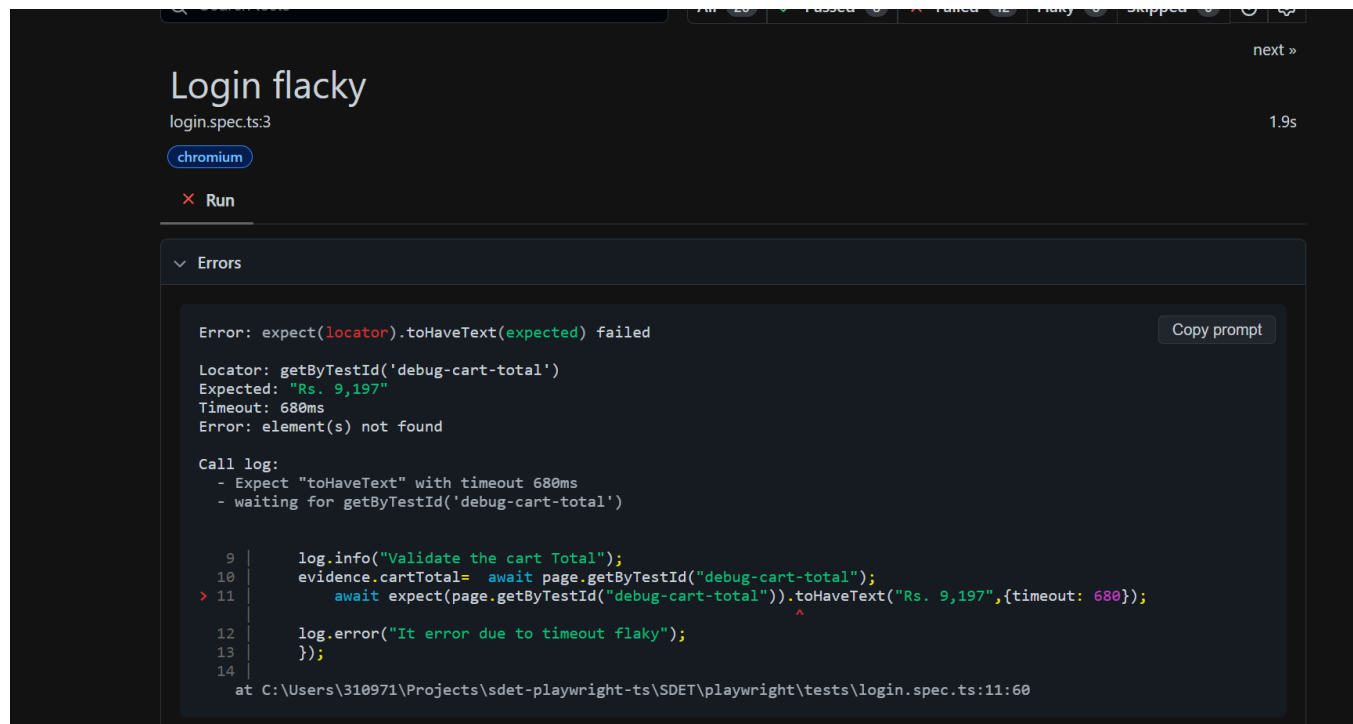

```
▼ SDET
  ▼ .github\workflows
    ! ci.yml
  ▼ playwright
    ▼ .github\workflows
      ! playwright.yml
    > blob-report
    > fixtures
    > node_modules
    > playwright-report
  ▼ src
    TS cartResponse.ts
    TS logger.ts
    TS orderItem.ts
    TS paisa.ts
    TS refunds.ts
  ▼ support
    TS cases.ts
    > test-results
  ▼ tests
    TS endToEnd.spec.ts
    TS login.spec.ts
  .gitignore
  {} package-lock.json
  {} package.json
  TS playwright.config.ts
```

4. Test Execution

5. Evidence

1.Login to Debug-Cart

Symptom:A Flaky Test

Rootcause:

Asserting before visible

Fix:

Use Web first expect

Proof:
