

Playwright Testing for SHOPPERS STOP

Folder Structure:

Command to initiate the playwright setup

What is given to test:

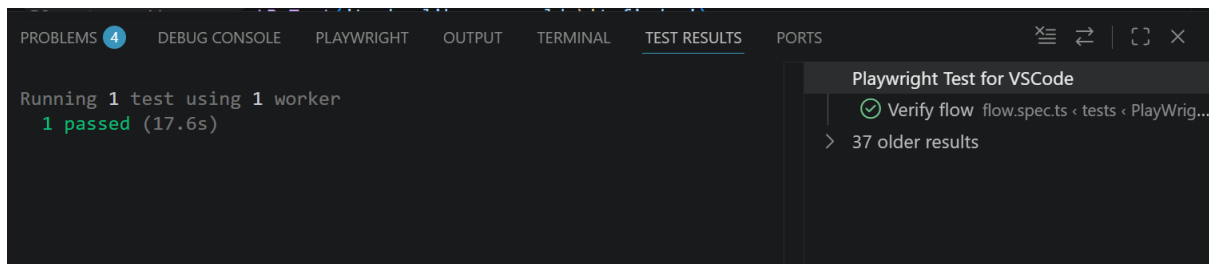

- 1) Open home page
- 2) Verify title or banner to be visible
- 3) Use the search bar to search for a keyword
- 4) Verify search result page related content appears

Test case: postive

```
test("Verify flow", async ({ page }) => {
  await page.goto('https://www.shoppersstop.com/');
  await expect(page.getByRole('link', { name: 'logo', exact: true })).toBeVisible();
  await page.getByRole('textbox', { name: 'Search' }).click();
  await page.getByRole('textbox', { name: 'Search' }).fill('shoes');
  await page.getByRole('textbox', { name: 'Search' }).press('Enter');
  await expect(page.getByRole('heading', { name: 'Shoes' })).toBeVisible();
  const page1Promise = page.waitForEvent('popup');
  await page.getByTestId('product-card').first().click();
  const page1 = await page1Promise;
});
```

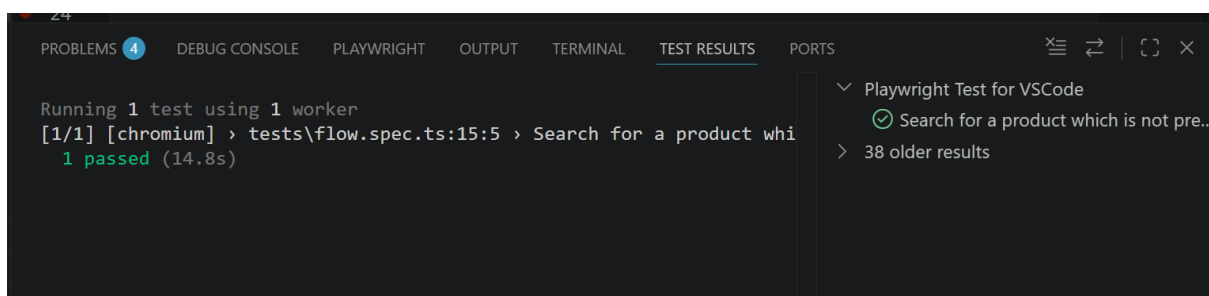

Commad to test: npx playwright test

For verify flow

Negative: when we don't have a product it should show product not found

```
test("Search for a product which is not present", async ({ page }) => {
  await page.goto('https://www.shoppersstop.com/'); - 8079ms
  await page.getByRole('textbox', { name: 'Search' }).click(); - 301ms
  await page.getByRole('textbox', { name: 'Search' }).fill('lahari gandla'); - 77ms
  await page.getByRole('textbox', { name: 'Search' }).press('Enter'); - 83ms
  await page.getByText('No Result Found');
  await page.getByText('Looks like we couldn\'t find a');
});
```
