

Capstone Project

UI Test Report

Tested By: Premchand Chellisseril Pramod

Date: 17-07-2026

Git Link: [ust-sdet-training/SDET at premchand-final-capstone](https://github.com/ust-sdet-training/SDET-at-premchand-final-capstone)

1. Objective

Objective

Automate flow for searching and booking a flight

Booking Flow: Login → Search Flights → Select Seats → Enter Details → Payment → Confirm Booking

Invalid Flow: Login → Search Flights Without City → Invalid Search Data

3. Flows Under Test

Booking Flow: Login → Search Flights → Select Seats → Enter Details → Payment → Confirm Booking

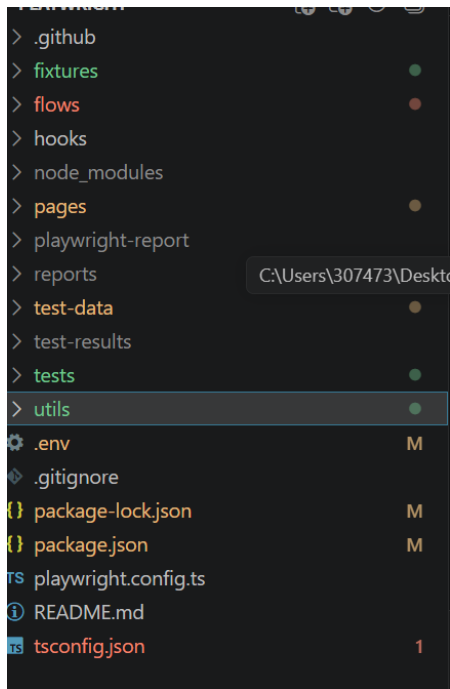

Invalid Flow: Login → Search Flights Without City → Invalid Search Data

Execution Command:

```
mvn test
```

4. Framework Design

Folder Structure

Components

Fixtures

Contains fixtures for passing states and implementing logging

Flows

Contains automation flow which can be reused

Hooks

Setup and teardown for a test

Pages

Contains pages with page related locators and functions

Test-data

Contains data to be used in the flow

Utils

Contains utility that can be used when debugging ie, logger

5. Test Scenarios Covered

1. **Booking Flow:** Login → Search Flights→ Select Seats → Enter Details → Payment → Confirm Booking

STATUS: PASSED

Test Steps

Filter steps

- > ✓ Before Hooks 2.0s
- > ✓ Navigate to "/login" — ../pages/LoginPage.ts:17 750ms
- > ✓ Expect "toBeVisible" getByRole('heading', { name: 'Sign in to TripStack' }) — ../flows/BookingFlow.ts:22 101ms
- > ✓ Fill "wendy@tripstack.test" getByRole('textbox', { name: 'Email' }) — ../pages/LoginPage.ts:21 38ms
- > ✓ Fill "Password@123" getByRole('textbox', { name: 'Password' }) — ../pages/LoginPage.ts:22 30ms
- > ✓ Click getByRole('button', { name: 'Sign in' }) — ../pages/LoginPage.ts:23 626ms
- > ✓ Fill "Pune" getByRole('combobox', { name: 'From' }) — ../pages/HomePage.ts:22 64ms
- > ✓ Click getByRole('option', { name: /Pune/i }) — ../pages/HomePage.ts:25 87ms

1. Login

The screenshot displays the Playwright test runner interface for the 'Login' test step. At the top, a timeline shows the execution progress from 0.0s to 11.0s. Below the timeline, the 'Actions' tab is active, showing a list of 18 actions. The 'Click' action for 'Sign in' is highlighted in blue. The right side of the interface shows a preview of the web application, which is a login form titled 'Sign in to TripStack'. The form has fields for 'Email' (wendy@tripstack.test) and 'Password' (Password@123), and a 'Sign in' button. The preview also shows the 'TripStack' logo and a footer with copyright information.

2. Input for search

Playwright BookFlight.spec.ts:4 › Search Flight

Actions Metadata 18 hidden

Filter actions

- getByRole('option', { name: '/Pune/...' 65ms
- fill('Delhi' 65ms
- getByRole('combobox', { name: 'To...' 80ms
- click 80ms
- getByRole('option', { name: '/Delhi/...' 41ms
- fill('2026-08-09' 41ms
- getByRole('textinput', { name: 'Date' }) 272ms
- Screenshot 272ms
- Attach "Home Page" 9ms

7. Execution Result

Metric	Value
--------	-------

Total Tests	2
-------------	---

Passed	2
--------	---

Failed	0
--------	---

Skipped	0
---------	---

8. Conclusion

The UI testing successfully automates all given flows with proper assertions and framework structure.
